## ABOUT ME

Meet a web developer extraordinaire, a coding wizard who can turn caffeine into stunning websites, Yeah myself Sayan, I'm just a weird kid from India. I am obsessed with making things and even more obsessed with making things better. I have been in the business of creating since I hung my first painting on fridge. I create compelling and simple-to-use designs, whether it's a website or an interface.

## PERSONAL

- Good Communication
- Teamwork
- Time Management
- Creativity and Innovation
- Curiosity and Continuous Learning
- Commitment
- Management

## LANGUAGES

English

Bengali

Hindi

## EDUCATION

2020 - 2024

Heritage Institute of Technology

Engineering

In the dawning of 2020, I embarked upon a new chapter of my educational voyage, embracing the corridors of Heritage Institute of Technology, where I delve into the realms of knowledge, pursuing my passion for Computer Science Engineering, creating a tapestry of growth and aspirations.

2008-2020

Holy Child School

Schooling

I attended Holy Child School, where I received a quality education and cherished memories that shaped my academic journey.

## EXPERIENCE

Internship

ARDENT COMPUTECH PVT. LTD

Cloud based Full Stack Development

embarked on a transformative journey, interning at Ardent Computech Pvt. Ltd

Backend project

Online Restaurant System

The Dining Den

A user-friendly website for online seat booking, revolutionizing the way customers reserve tables at restaurants.

Front-end Project

Caesar cipher encryption

Fashion School

A website employing Caesar cipher encryption, offering a secure and intriguing method for encoding and decoding sensitive information.
